

NCP-Academy Training

Joint event between ETNA 2020 and NCP Academy

**“Standardization in Horizon 2020 projects -
Selected IPR issues in Horizon 2020”**

23 January 2019 , Lisbon, 9 am – 13 pm

Museu das Comunicações, Rua do Instituto Industrial, 16 - Lisbon

BACKGROUND & CONTENT OF THE EVENT

Economic implementation and market acceptance of project results are now essential aspects of many Horizon 2020 projects. Standards and standardization can make a significant contribution to project success, especially as regards to quality requirements, safety, compatibility and interoperability of innovative products and systems.

Therefore, it is important to consider standardization from the conception of a Horizon 2020 project to project completion and, particularly, the exploitation of project results.

Given that standardisation is one option for exploitation of projects result the second part of the training will be dedicated to IPR issues.

IPR plays a key role from the project idea to the project proposal phase and project implementation. The IPR session of this training summarises the basics of IPR in order to have a common understanding of the definitions and relevance of IPR issues in Horizon 2020. Then, the speaker will go into selected topics such as exploitation and protection of project results, IP relate clauses in the Grant Agreement and Consortium Agreement and other IP regulations.

Important: As the training is limited to 4 hours it will deliver basics and can only go into detail or a limited number of selected issues. The training will include some interactive parts.

OUTCOME FOR PARTICIPANTS

Participants will

- get a better understanding of the relevance of standardization in Horizon 2020 and how it should be used in projects and proposals
- repeat and understand IPR basics throughout a project's life cycle, including exploitation issues in Horizon 2020
- get an overview and clear understanding of IP related clauses in the Consortium agreement and Grant Agreement
- get answers to all standardisation and IPR questions they always wanted to ask.

WHO SHOULD ATTEND?

The training is customised for an audience composed by NCPs working in the transport sector.

TRAINERS & SPEAKERS

Fernando Utrilla | UNE – Spanish Association for Standardization (CEN and CENELEC)
Nicole Schröder | DLR

AGENDA

9am	Welcome Miriam de Angelis, APRE, Coordinator of ETNA2020 Vassiliki Kalodimou FORTH, Task Leader
------------	--

9.15-11.00 **Standardization in Horizon 2020 projects**
Fernando Utrilla | UNE – Spanish Association for Standardization

- Interactive start
- What is standardization and what is it not /definition
- Why is standardization so important in the context of R&D and why specifically for the transport sector?
- How to include it correctly into proposals/projects
- Case studies of the transport sector
- Q&A Session

11.00 pm	Break
